MEMORANDUM CIRCULAR NO. 2020-062

TO : ALL VALUED MEMBER/CONSUMERS
FROM : COTELCO MANAGEMENT
DATE : FEBRUARY 14, 2020
SUBJECT : FEBRUARY 2020 POWER RATES ADVISORY

=====

To all our valued Member/Consumers, we would like to inform you that for the month of **FEBRUARY 2020** the **power rate for a typical household** has decreased by **PhP0.64/kWh**.

The reduction of the rate is mainly brought by the change in the **Generation Charge** which went down by **PhP0.28/kWh** compared to the previous month due to adjustments granted by some of the Power Suppliers. Also, for this month, there is a slight decrease in the **Transmission Charge** of residential customers by **PhP0.04/kwh**. **Taxes and other charges** combined have a significant decrease of **PhP0.32/kwh** contributing to the drop in the over-all rate.

Starting this billing month, TRANSCO is only authorized to collect Feed-in Tariff Allowance (FIT-All) equivalent to **PhP0.0495/kWh** which is lower by **PhP0.1731/kWh** than the 2018 FIT-All Rate. This is based on ERC Case No. 2018-085 RC (Decision) dated January 28, 2020. Moreover, PSALM Corporation has also advised to cease implementation of the Universal Charge – Stranded Contract Cost (UC-SCC) which is **PhP0.0543/kWh**, thus an outright reduction in the rate equivalent to the said amount.

COTELCO's **Distribution, Supply, and Metering charges** (DSM Charges), meanwhile, have remained unchanged.

We would like to remind you that COTELCO does not earn any amount from the pass-through charges, such as the generation, transmission, taxes and others. Likewise, please continue to practice energy-saving initiatives to help manage electricity consumption.
